

Your carbon calculation 2023

**Total
emissions**

278.85
(tCO₂e)

**Total
offsets**

0.00
(tCO₂e)

**Per
employee**

13.94
(tCO₂e)

**Per £1000
turnover**

0.07
(tCO₂e)

Scope 1

Emissions - Direct

210.35 (tCO2e)

Gas and other fuels you use directly	0.00
Vehicles you own or lease	210.35

Scope 3

Emissions - Supply chain

55.38 (tCO2e)

Estimating your building's water use	0.12
T&D Emissions	1.14
WTT Emissions	54.12

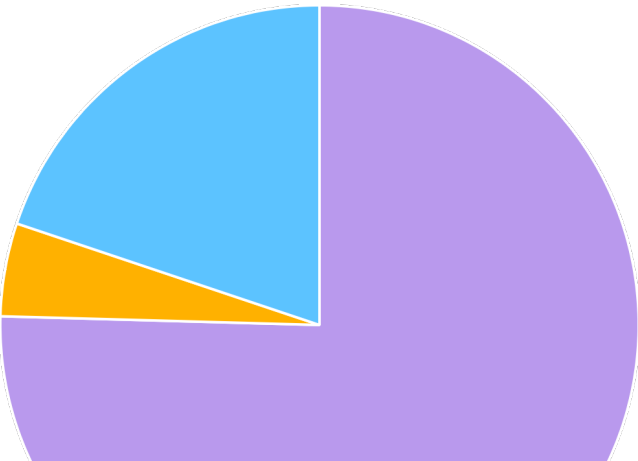

Scope 2

Emissions - Indirect

13.12 (tCO2e)

Electricity	4.03
Estimating your building's energy use	9.09

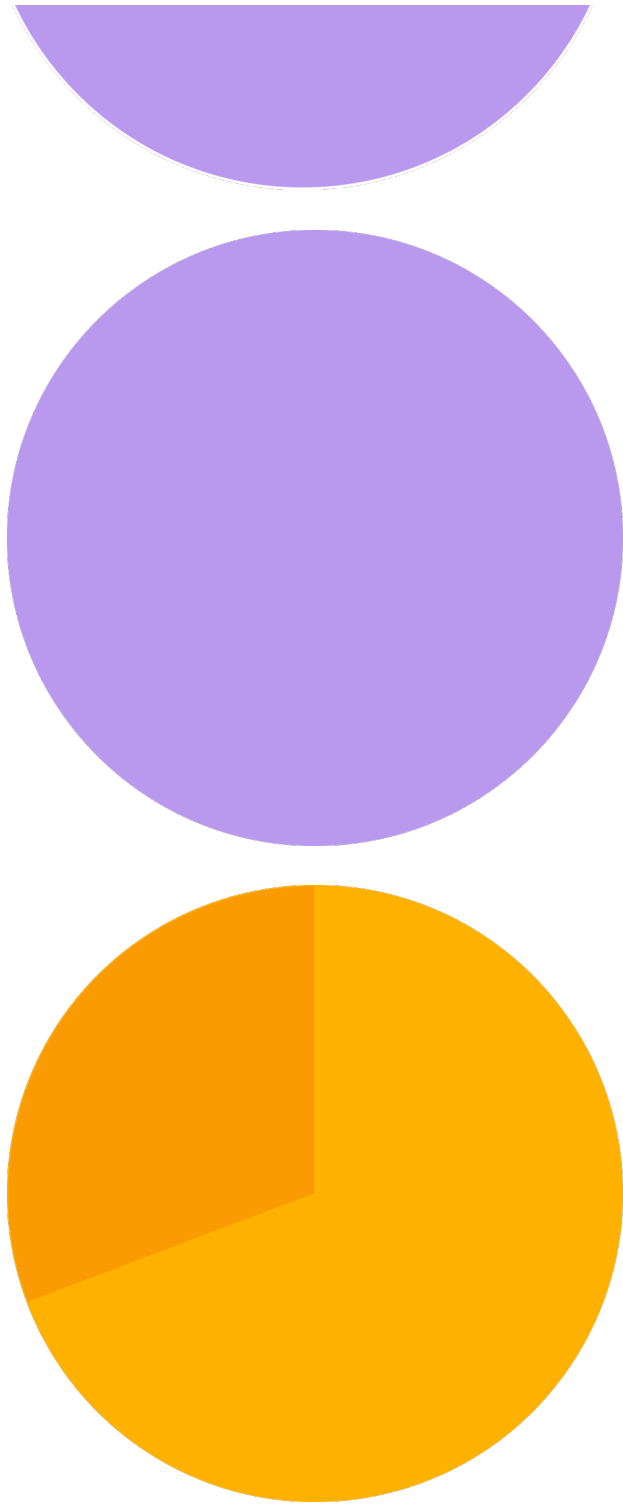

Scope comparison

Your carbon footprint at a glance

The charts shown here provide a clear and detailed visualisation of your carbon emission data, broken down by scope.

The emissions are displayed in descending order, with the largest contributors appearing first to help you quickly identify the most significant sources.

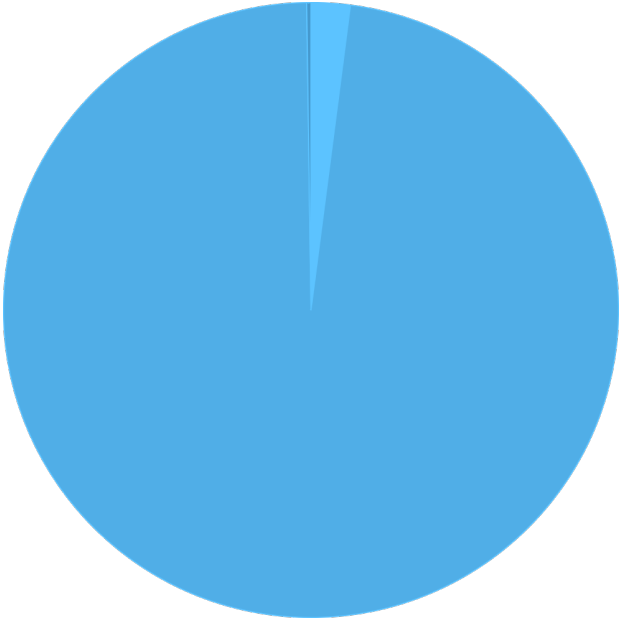

Scope 1

	tCO2e
Vehicles you own or lease	210.35
Gas and other fuels you use directly	0.00

Scope 2

	tCO2e
Estimating your building's energy use	9.09
Electricity	4.03

Scope 3

	tCO2e
T&D Emissions	1.14
WTT Emissions	54.12
Estimating your building's water use	0.12
