

Your carbon calculation 2024

 Total emissions 117.13 (tCO2e)	 Total offsets 0.00 (tCO2e)	 Per employee 5.86 (tCO2e)	 Per £1000 turnover 0.02 (tCO2e)
---	---	--	--

Scope 1

Emissions - Direct

80.03 (tCO2e)

Vehicles you own or lease	80.03
---------------------------	-------

Scope 3

Emissions - Supply chain

23.72 (tCO2e)

Estimating your building's water use	0.11
T&D Emissions	1.18
WTT Emissions	22.43

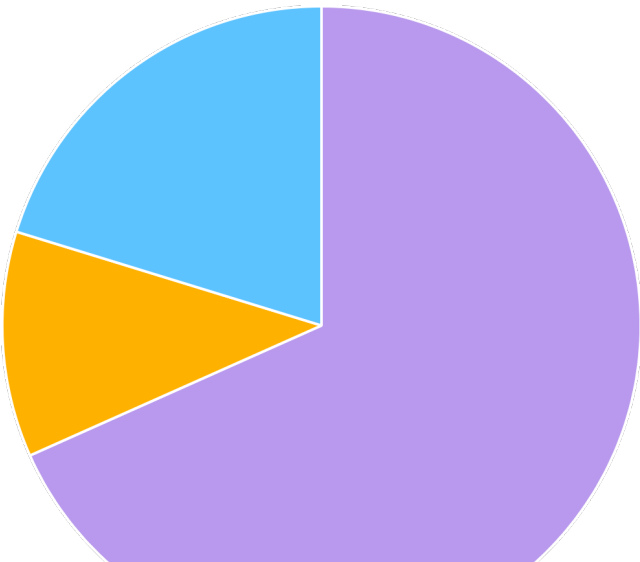

Scope 2

Emissions - Indirect

13.38 (tCO2e)

Electricity	4.29
Estimating your building's energy use	9.08

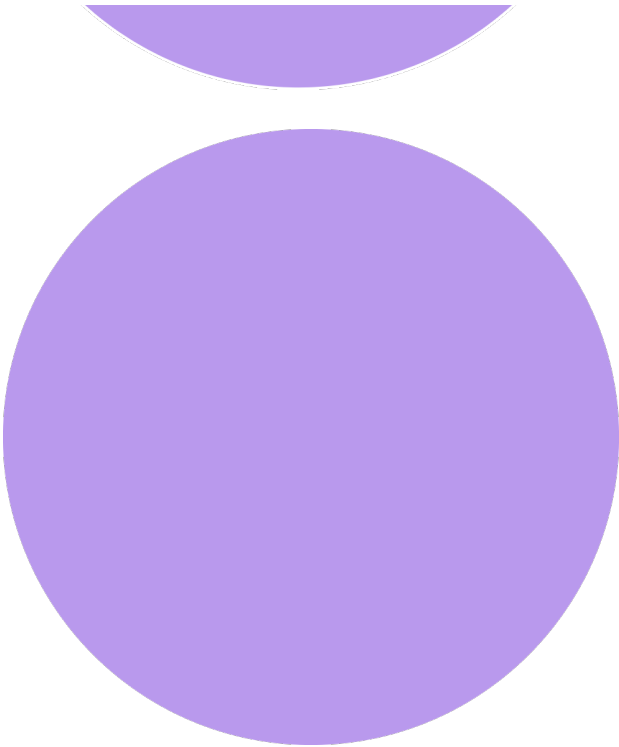

Scope comparison

Your carbon footprint at a glance

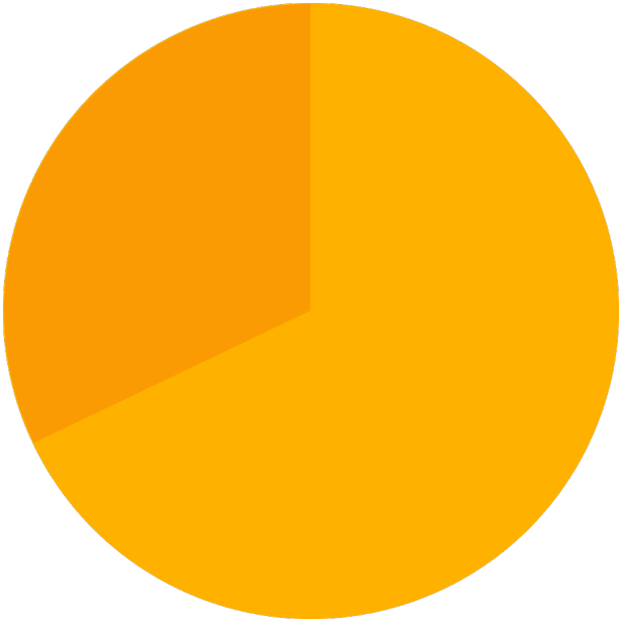

The charts shown here provide a clear and detailed visualisation of your carbon emission data, broken down by scope.

The emissions are displayed in descending order, with the largest contributors appearing first to help you quickly identify the most significant sources.

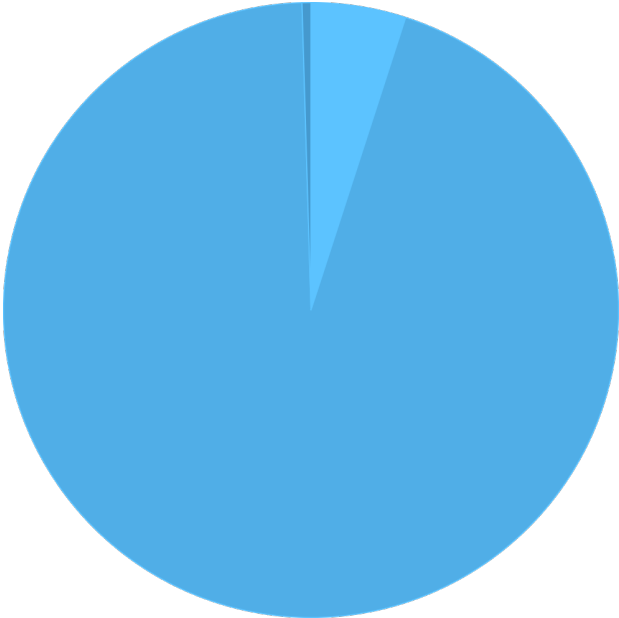

Scope 1

	tCO2e
Vehicles you own or lease	80.03

Scope 2

	tCO2e
Estimating your building's energy use	9.08
Electricity	4.29

Scope 3

	tCO2e
T&D Emissions	1.18
WTT Emissions	22.43
Estimating your building's water use	0.11
